Profile

I design and develop smart solutions based on data analysis and AI models using tools like Python, Pandas, and NumPy. I also build full-stack web apps with HTML, CSS, JavaScript, React, Node.js, Next.js, Spring Boot, Symfony, JavaFX, and databases to deliver complete, performant applications.

Professional Experience

10/2025 – 04/2026 ESPRIM	Full Stack & Data Science / IA Semester project: Full-stack recruitment platform with AI-powered CV parsing (spaCy NER + Transformer), semantic matching (SBERT), interview management, and real-time chat — MERN stack + FastAPI
10/2025 – 04/2026 ESPRIM	Full Stack & Data Science Semester project: Deep learning pipeline and web application for brain tumor detection and classification (MRI images)
10/2025 – 12/2025 ESPRIM	Full Stack & Data Science Semester project: ML model and web application for dental diagnosis.
08/2025 – 09/2025 MyStartup	Full Stack Developer Personal project: portfolio to showcase skills and projects.
07/2025 – 08/2025 Neuralbey	Frontend Developer Year-end project: medical desktop management application
01/2024 – 03/2024 ESPRIM	Full Stack Web Developer Semester project: medical management web/desktop application
10/2023 – 12/2023 ESPRIM	Desktop Developer Semester project: medical desktop management application
03/2023 – 06/2023 TriosWeb	Full Stack Developer Final year project: development of an HR dashboard to track resources and indicators.

Skills

Frontend Development

React, Next.js, TypeScript, Tailwind CSS, HTML, CSS, JavaScript

Backend Development

Node.js, Express.js, Python, Django, REST APIs, JWT Authentication

Databases

MongoDB, Neo4j, MySQL, Mongoose, Prisma

Data Science & Machine Learning

Python, Pandas, NumPy, Data Visualization, Jupyter Notebook

Tools & DevOps

Git, Docker, Vercel, Postman

Projects	
10/2025 – 04/2026	AIR — AI-Powered Recruitment Platform - MERN stack web app with AI-driven CV parsing (spaCy Transformer + NER) and semantic matching (SBERT) - FastAPI microservice for ML model serving and candidate-job scoring - Multi-role dashboards (recruiter / candidate / admin) with interview management and real-time chat
2/2026– 04/2026	Brain Tumor Detection – Web Application & ML Pipeline - Built and trained deep learning models (CNN, EfficientNet) for MRI brain tumor classification with GradCAM explainability and uncertainty estimation - Developed a REST API (FastAPI) and interactive dashboard (Streamlit) containerized with Docker
10/2025 – 12/2025	Dental Diagnosis Web Application & ML Model - Data analysis and reporting with Jupyter Notebook (Python) Metrics and visualizations for diagnosis
08/2025 – 09/2025	Personal Portfolio Website  - Responsive, SEO-optimized design - Smooth animations and interactions
07/2025 – 08/2025	Neuralbey Professional Corporate Website - Landing page - Contact page with form - Internship offers section with application flow - Back-office to manage applications and interns
01/2024 – 03/2024	Modern Medical Management Web Platform - Smart chatbot for patient assistance - Messaging system implementation - Pharmacy management module - Appointments management module
10/2023 – 12/2023	Medical Desktop Management Application - Rebuilt web features: chatbot, messaging, pharmacy and appointment management - User-friendly interface with JavaFX
03/2023 – 06/2023	Human Resources Management Dashboard - Admin interface with advanced features - Manage employees, leave, and performance reviews

Education	
2022 – 2023 Mahdia	Bachelor's Degree in Computer Scienc Higher Institute of Computer Science Mahdia
2017 – 2018 Monastir, Tunisia	Baccalaureate , computer science option Lycée Fattouma Bourguiba Monastir

Certificates		
Certificate of participation in bootcamp c language with Microsoft Club	Certificate of participation in C language workshop with Coursera	Certificate of participation in lifeguard training at the hotel with the National Civil Protection Office
Certificate of participation in JS language workshop with Microsoft Club	Certificate of participation in Pascal with Africa Code Week Tunisia	Certificate of participation in the 2025 Project Ball
Certificate of participation in Data Science with ESPRIM		

Interests		
Camping	Swimming	Card games

Awards	
The Africa Prize in the Pascal Program	

Languages	
Arabic: Native	English: Intermediate (B1)
French: Upper-Intermediate (B2)	Russian: Beginner
